

# LET'S MAKE FLIGHT SCHOOL

## You will need:

- Cardboard
- Paint
- Scissors
- Marker pen
- Coloured paper

## Instructions:

1. Cut your piece of cardboard to the desired size – we would recommend 1189mm x 841mm.
2. Paint one side of your piece of cardboard to a colour of your choice and leave to dry.
3. In the meantime, using your coloured paper, cut out the letters 'Flight School'.
4. Once your cardboard is dry, stick your 'Flight School' letters to the top.
5. Now you can cut out 3 holes, varying in sizes – make sure the smallest one is still big enough to fit a paper aeroplane through!  
*Don't forget to add the number of points each hole is worth by the side!*

6. Prop your board up using some books or plant pots – you are now ready for take-off!  
*Don't forget to make your paper aeroplane – why not add some colour and design to it!*

 *Why not create a leader board and see who in your family can get the highest score!*
